

Short Biography of Dr. Moussa

Dr. Moussa obtained a PhD from Université Pierre et Marie Curie Paris, France in 2007 working on luminescent transition metal complexes. He then moved to ETHZ for a postdoctoral stay in the group of Antonio Togni working on ferrocenyl based NHC ligands for asymmetric catalysis. He was then appointed as assistant professor in 2009 and then as associate professor in 2023 at Sorbonne Université, Paris. He is currently leading his research at Sorbonne Université involved in a strong CNRS-Kyushu University Japan with the group of Prof. C. Adachi in the frame of the International Research Project LUX-ERIT with the aim to seek photonic applications such as OLEDs technology. Dr. Moussa has co-authored more than 60 papers and oral communications. H-index 23. Citations 1707.
